Deafness Cannot be Cured by least applications as they cannot reach the diseased portion at the ear. There is only one way to dure deafness and that is by consutational remedies. Deafness is caused by an inflamed condition of the mucous liming of the Eastochan Tube. When this tube is inflamed you have a rumbing cound or imperfect bearing, and when it is entirely olosed. Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

on the Panama Canal-A Queer Way to Reform the Tariff.-Other Washington News.

Washington, March 3.—The special train bearing President-elect Cleveland and party arrived at the Baltimore & Ohio station in this city at 5:30 o'clock lust evening. An immense throng of people surrounded the station and filled the streets on either side of it, all enger to get a glimpse of the next presi-dent. The crowd began to collect as early as 5 o'clock, and constantly in-creased until the arrival of the distinguished party. It was rumored that

This intimation, however, did not have the desired effect of dispersing the crowd, and finally they were rewarded by seeing the president-elect alight from the car and take the arm of Col. With great difficulty a passageway was cleared and Mr. Cleveland bowing his acknowledgments, made his way to a carriage and was at once appidly driven to the Arlington hotel. Report of the Congressional Committee on the Panama Canal. WASHINGTON, March 3.—The con-gressional committee, which has been engaged in conducting an investiga-tion of the Panama canal and ship railroad schemes, made a report yes

The committee says that so far as the treaty of 1818 with New Grenada is concerned, and so far as the concessions granted to and contracts made with the present Panama railroad corporation are concerned there is no clear ground for the assertion that any exclusive right to cross the Isthmus was ever in terms granted, or by implication secured, whether to an American corporation or to a citizen of the United States to the a citizen of the United States to the exclusion of citizens of any other country. There seems no ground, so far as the evidence before the committee goes, for the claim that the government of New Grenada, or the United States of Columbia has ever guaranteed that the United States shall control the transit, or place any limitation on the legal rights of shareholders in the railway company, or restricers in the railway company, or restriction in the nationality of its owners of

The committee has done its utmost in the limited time before it to investi-gate the charge that money was expended to prevent opposition in the company to the plans of the canal. It has been unable thus far to trace directly the expenditure of any money whatever in a corrupt way to influence the legislative or executive action of the United States government

A Queer Way to Reform the Tariff.

Washington, March 8.—A sing has been struck in the senate in the progress of the block tin and linen tariff bills, and the indications are that the bills, after passing the house, will fail. Some of the democratic senators insist Some of the democratic senators insist that if the bills are taken up they will move to add to them the various special tariff bills sent over by the house last session attacking the wool, binding twine, cotton bagging and other schedules of the McKinley tariff bill, which are now in effect. Thirty Persons Thrown Into the Ice Clogged Water at a Launching-Many Injured and Several Supposed To Be Drowned.

BAY CITY, Mich., March 8.—What had been looked forward to as one of the pleasant days in the history of F. Wheeler's ship yards at West Bay City, yesterday terminated in a most frightful accident. The company was to lay the keel of the Centurion, the one hun-dredth boat built by them, and it was an event of more than ordinary iman event of more than ordinary importance, drawing people from all over the Saginaw valley. Hundreds of boys and many men flocked to the steamer and climbed to her hurricane dark. They were regarded their dans deck. They were warned of their dan-ger and told that the swell from the schooner when launched would knock them off, but many remained, the view when on, our many remained, one view being very good from that point. When all was ready, at 4:45 o'clock, and the last hawser cut, the schooner

started slowly for the water. Then with a rush she plunged into the ley slip, and an immense wave forced the tee and steamer Forbes in the air. The Forbes rolled until half over, and then the crowd on shore saw a sight which chilled them. Those who had remained on the upper deck were clinging on for life, if they could find projections, while less fortunate ones were flying headlong toward the water. Fully thirty were thrown overboard, and in an instant the block forms were to the sur stant the black forms rose to the surface between the two boats and in the field of broken ice. The people gathered in large numbers and began politing the gendarmes with stones and mud. The latter were unable to re-

ready begun. A dispatch received here yesterday from the Pawnee agency says:

"The settlers made a raid on this part of the Cherokee strip last Saturday und Sanday, and now every quarter-section along Blackberry creek has a settler on it. In fact, all of the good claims are taken by the people."

All the available troops at Forts Supply, Sill and Reno were ordered out yesterday by Col. Wade, of Fort Reno, to patrol the northern line of the Cherokee strip, to repel threatened invasion by boomers.

The Cherokee Settlers' atsociation met yesterday and issued the following:

Arkansas City, Navola, 1822

To Whom it, May Conorms.—Unfortunately the settlers' meeting held some days ago at Caile has phaced the intended settlers in an unfavorable light in the eyes of many. We are not a mob, we are making no demands not in the line of justice and fair, honest dealing. We are a band of men entitled to fair and knonvable treatment from all. We believe we have rights as American citizens, and we have the courage to speak our convictions. A misconstruction of facts as to the intentions of the prospective sottlers in and about Arkansas City has caused the occupation of the Cherokee strip by settlers. We have hotting further to say than this. In the even the of a failure of action on the part of congress before adjournment, believing such failure to mean a neglect of duy toward the houses settlers and a refusal to recognize their title to the Cherokee strip, we say to the actions on the south, high noon on the Other the actions on the south, high noon on the other the actions on the south will find home-schers on the north with you in body and apirit. and home-scekers on the north with you in body and spirit

LONG LIFE TO THE AGED. Old people can greatly prolong

their lives if they will observe a few simple rules. In the firs place they ought always to dress warmly, especially in the fall and early in the spring. Then they ought to eat nourishing food and to keep the feet warm. Then they should avoid getting overheated and sitting in draughts. These are the main rules to be observed. They ought also to keep a cheerful countenance, and to avoid worrying and fretting. Nothing conduces to old age so much as this. If people would only maintain an equable flow of spirits, they would soon see the change in a better condition of health. When they do take cold they should take Reid's German Cough and Kidney Cure, for this great remedy stimulates the vital forces, arouses the kidneys to action and restores the circulation to its normal state. This is the only cough remedy in the market that acts in this manner. Get it of any dealer. SYLVAN REMEDY Co., Peoria. Ill.

What has become of J. S. Clarkson

and David Bennett Hall? THE Republicans of Chicago ought to ominate a straight ticket on a straight business platform by a straight Republi can convention, and go straight to victory y commanding the votes of the straight and good citizens of Chicago.

DEMOCRATIC promises to the people are caver kept, but when a promise to protect those who deal in options on farm products is given, in consideration for sampaign contributions, it is faithfully kept. See the Democratic vote by which the anti-option bill was defeated in con-

Tun Chicago Herald (Dem.) has this to say of the work of the Democratic reform party, which it represents, and

which has always been a failure.

The nomination of Carter H. Harrison for mayor is a public calamity, in the first place, as showing that the Democratic party, with 35,000 majority in this splendid World's Fair city has failed miserably in the performance of its duty to the interests which it had in charge

ALTGELD, when a candidate for governor, propused to reduce the number of state boards, but so far not only have all the old boards been retained but the Democratic legislature is arranging for some additional ones Democratic promisse to the people never amount to more than Ed. Wilson's promise to cover into the treasury moneys received as interest

THE Democratio hosses are shrewd, to say the least. Now, since they slapped "Wash" Hesing and the Germans in the face in the recent Ohicago convention they are trying to even up and calm the ruffled temper of the Germans by saying that Mr. Hesing would make an excellent Democratio candidate for state treasurer in 1894 and for governor in 1896. It remains to be seen whether they can deceive honest men by the use

SPEAKING of the make-up of the Chipago Demogratic city convention, and the treatment the German voters received at 1ts hands, Mr. Resing's paper the Staats Zertung, says:

the Staats Zertung, says:

The administration of the city of Chicago can certaily not be trusted to a man who gives unnealt up to the very soum and oriminal classes of our community Unon this point we believe all good citizens, irrespective of party, are a unit. * The Germans of Chicago can consider itse a great honor that no true representative of their nationality is found upon the ticket with Harrison, notwithstanding the fact the convention—not because it did not have any regard for German honor but because of its intense hatred of anything that was German—did not respect the wishes of that great nationality.

The Democratic contempt for our German citizens is not confined to Chi-

A voice from Wall street, supposed to be that of Henry Villard, gives out Oleveland's financial policy, which, in short, is to make every dollar of United States money as good as gold Just how this is to be done is not explained, but the following plan was said to have the approval of Mr. Cleveland and Mr. Carliele First, retire all paper money. Second, com silver to take its place; issue com certificates as receipts for deposits of coin Third, establish an equivalent fund to nold and maintain the difference in gold between the bullion value and the face value of silver come. Deafness Cannot be Cured
by local applications as they cannot
reach the diseased portion af the ear.
There is only one way to cure deafness
and that is by constitutional remedies.
Deafness is caused by an inflamed condition of the mucous iming of the Enstachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed. Deafness is the result, and unless the
inflammation can be taken out and this
tube restored to its normal condition,
hearing will be destroyed forever; nine
cases out of ten are caused by catarrh,
which is nothing but an inflamed condition of the mucous surfaces.

found the announcement of the candi dacy of Justice W. H. Shorb for justice of the peace. Justice Shorb is well known to the people of Decatur townpast 26 years, and is now practically an old settler. He was for seven years superintendent of streets in Decatur and for one year overseer of the poor, and last year was elected to succeed Justice Curtis, deceased. All these positions Justice Shorb has filled in a satisfactory manner, and as a result of his faithful services is in a good position to again ask for a renomination for justice of the peace. His success at the polls last spring, when he met strong competitors, is a guarantee that in the event of his nomination he will land the office safely.

Paid Their Special Assessments. The Illinois Central Railroad company, by their attorneys, Outten & Page, sesterday paid to City Clerk Skelley its special assessments for street paving. The total amount paid is \$2918.24, which was on account of the paving on the east side of the Illinois Central track on Eldorado street, paving Broadway from East Main street to Wood street and the intersection on East Wood street on the Illinous Central right of way. This is the special tax the Illinois Central railroad contended against paying, pleading the constitutional exemption from taxes

in lieu of the annual payment to the state by the company of seven per cent. of their gross earnings. The courts, however, held that this does not apply to special taxes.

Stevens for Justice.

Squire A. O. Stevens is a candidate for justice of the peace, an office which he has filled with credit to himself and o the general satisfaction of the public. He will submit his name to the action of the Republican convention which will meet March 11th. 'Squire Stevens was a member of the old 116th Regiment. His familiarity with the office and his knowledge of law fit him especially for the discharge of the duties of justice. During his term of office he has done nsiderable business. He has had on his dockets 810 civil and state cases, 745 city cases, 412 obsttel mortgages, and has married 110 couples; total 2077. Mr. Stevens has been a good official, and well eserves renomination and election.
